FIFTY-FOURTH ANNUAL REPORT

OF

THE WORKERS' COMPENSATION BOARD

SASKATCHEWAN

FOR THE YEAR ENDED 31 DECEMBER 1983

To His Honour The Lieutenant Governor:

The Board is pleased to submit its Annual Report for the year ended 31 December 1983.

The year saw amendments to The Workers' Compensation Act, 1979, providing for improved benefits and administration, as well as an extensive review of claimants receiving permanent disability awards under former legislation.

In addition during 1983 the Board:

- continued its practice of encouraging meetings with organizations concerned with the administration of the Act.
- as required by Section 38 of the Act, increased the maximum annual wage rate for assessment and compensation purposes from $29,000 to $33,000 effective 1 January 1984. The increase is not retroactive, applying only to accidents occurring on or after this date.
- awarded merit rebates in respect to 1982 operations to 14,750 employers totaling $4,167,251. Average rebate was $282.53 representing 7.58% of assessment in 1982.
- pursuant to Section 145 of the Act awarded grants to four employer associations organized for the purpose of injury prevention and safety.
- added the position of Chiropractic Consultant to aid staff in evaluating claims involving chiropractic treatment.

CLAIMS

A total of 37,574 claims were reported* during 1983, an increase of 4.06% over the 36,107 recorded in 1982.

Injuries settled+ for the ten year period from 1974 through 1983 were as follows:

Year	Fatal	Permanent Impairment	Temporary Impairment	No Time Loss	Total
1974	53	174	13,134	15,186	28,547
1975	45	369	13,776	15,432	29,622
1976	40	530	14,989	19,103	34,662
1977	32	657	15,546	19,730	35,965
1978	47	714	14,722	18,757	34,240
1979	42	732	16,219	21,441	38,434
1980	58	528#	17,182	20,743	38,512
1981	76	1,012#	17,858	21,334	40,280
1982	41	592#	16,285	20,024	36,942
1983	35	519	15,492	18,002	34,048

Approximately 47% of settled claims involved time loss beyond day of injury.

Upon request earlier claims may be reviewed and further entitlement authorized if warranted. In 1983 a total of 3,448 claims were re-opened.

Workers' compensation is essentially an income maintenance program. Accordingly, every effort is made to ensure prompt delivery of benefits. To achieve this goal administrative procedures are under contant review.

* Reported injuries refers to those reported during the calendar year whether the injury occurred in that year or prior.

+ Settled injuries does not include claims on which no action was taken, claims disallowed, duplicate claims, etc.

Includes permanent functional impairment awards established under Section 67 of The Workers' Compensation Act, 1979 and disability pensions awarded under prior legislation.

ASSESSMENTS

Employers are assessed annually on earnings of their employees to provide a fund for the payment of compensation, medical aid, vocational rehabilitation, physical rehabilitation, grants to employer associations organized to prevent injury and promote safety, administration of the Act, administration of the industrial safety program under the Occupational Health and Safety Act and the remuneration, travel and other expenses of the Worker's Advocate.

While the Injury Fund is one and indivisible with liability placed on all industry collectively, the industries under the Act are divided into various classes and sub-classes. Separate accounting is kept of assessment received and injury costs for each industry classification. Each class is in essence a mutual insurance association of the employers comprising the class. The Government of Canada for whom the Board administers claims for injury to its employees in Saskatchewan under the Government Employees Compensation Act is excepted.

The Disaster Reserve is designed to prevent adverse financial consequences to an employer or industry classification as a result of the excessive costs accruing from a disaster. The Second Injury Fund provides financial relief to employers when disability from an injury is enhanced because of an unrelated pre-existing condition.

All employers under the Act are required to file with the Board by the last day of February each year a return showing the actual wages paid during the preceding year together with an estimate of the payroll for the current year. Assessment is made on the estimated payroll subject to adjustment when actual payroll is submitted the following February.

Assessment rates are established after considering cost experience, the financial position of the industry classification, the reserves required for outstanding claims and pensions and the cost of administering the Act.

The Board met with 23 employer groups and associations in connection with setting 1984 provisional assessment rates.

Appreciating the need for employers to have early advice of assessment rates for the coming year the Board provided this information by mid November. However, employers are encouraged to refer to Exhibits 9 and 10 of this report which identify the financial position of each industry classification, the primary indicator of assessment rate change.

The number of employers, average rates of assessment and payroll assessed for the ten year period from 1974 to 1983 are as follows:

Year	No. of Employer Accounts Processed	Average Rate Of Assessment	Assessable Payroll
1974	19,945	1.82	1,076,921,986
1975	22,692	2.14	1,461,531,244
1976	23,694	2.21	1,901,145,146
1977	25,092	2.16	2,259,061,528
1978	26,019	1.92	2,778,331,505
1979	27,444	1.70	3,180,479,750
1980	28,822	1.42	3,629,755,085
1981	29,763	1.31	4,171,506,376
1982	30,236	1.22	4,509,447,272
1983	31,406	1.27 (provisional)	4,875,663,733 (provisional)

APPEALS

Due to the volume of claims the members of the Board cannot be involved in the initial determination of a worker's entitlement to wage loss compensation or permanent functional impairment. As well it is Board policy that initial appeals of decisions be dealt with by Committees established primarily for this purpose.

Where doubt exists regarding entitlement the case is referred to a Committee composed of senior members of the Claims Department for decision. If the claim is disallowed the worker is provided with a written explanation for the action and informed of the right to appeal to the members of the Board.

Appeals concerning permanent functional impairment are dealt with by a Committee composed of senior members of the Claims Department referred to as the Earnings Replacement Committee. Workers are informed of their right to appeal decisions of the Committee to the Board.

During the year 121 workers were examined by independent Medical Boards as provided for by the Act, while 12 workers elected to be examined by a Medical Review Panel. The decision of the latter body is binding on both the worker and the Board with respect to medical matters.

Committees of senior staff members consider initial appeals by employers on assessment and claims matters. Subsequent appeals are dealt with by the Board. The Board handled 254 appeals during 1983.

The office of the Worker's Advocate was established by the provincial government to assist workers experiencing difficulty with their claims. The Worker's Advocates are employees of the provincial Department of Labour completely independent of The Workers' Compensation Board but with full access to claims records.

Employers and workers may utilize the services of the Ombudsman concerning any ruling of the Board after all means of appeal provided for in the Act have been pursued.

PENSIONS AND PAYMENTS TO DEPENDANTS

Pensions payable to disabled workers and dependants of deceased workers under prior legislation and payments to dependants of deceased workers under The Workers' Compensation Act, 1979 are provided for by ensuring the amounts charged to the employers, which together with interest earned are sufficient to meet the liability. At 31 December 1983 the accrued liability was $148,858,841, which is part of the Board's total liability of $269,430,316.

Pensions issued to 149 workers injured when former Acts were in effect increased the liability of the Board by $7,868,830. Liability amounting to $3,031,657 accrued to payments made to dependants of deceased workers under The Workers' Compensation Act, 1979. In total the liability of the Board increased by $10,900,487 during 1983.

Legislated pension increases applied in 1983 increased liabilities by $24,500,000 for injured workers and $13,000,000 for dependants. The additional liability was funded from existing surplus $20,400,000, favorable experience on actuarial assumptions, $3,900,000, and interest applied $13,200,000. There was no direct charge to employers. The Board's liability of $148,858,841 as at 31 December 1983 has been actuarily determined and is part of the Board's total liability of $269,430,316.

Payments being issued at the end of 1983 compared to the previous year allowing for deaths, remarriages and dependent children terminating or returning to school are:

Prior Legislation	1983	1982
Spouses	458	483
Children	300	329
Other Dependants	5	6
Disabled Workers	4,408	5,342

Workers' Compensation Act, 1979	1983	1982
Spouses	119	94
Other Dependants	42	14
Long Term Disability	225	45

MEDICAL

The Medical Department consists of five physicians and clerical personnel. All of the physicians have considerable experience in the general practice of medicine prior to being employed with the Board. They are selected for their training, experience and judgment. Skills and knowledge peculiar to workers' compensation are developed on the job. This includes continuous review of medical literature and attendance at the appropriate medical education sessions.

The Medical Officers act as consultants on medical matters to the non-medical Board personnel, particularly the Board Members, Claims Department and Vocational Rehabilitation Department. Only a fraction of all claims are referred to the Medical Department, however, of these the majority are complicated in some manner.

Medical Officers provide opinions regarding the relationship between injury and work activity. This is usually not necessary for claims involving specific acute trauma, however, complications of trauma, industrial disease and conditions arising out of and in the course of employment are less easily defined and require considerable medical investigation and expertise.

The Workers' Compensation Act, 1979, with its increased emphasis on vocational rehabilitation, has made it necessary to learn much more about injured workers including other health problems, physical stature, educational background and work experience.

Medical Officers are responsible for the monitoring of medical treatment that injured workers receive in order to ensure appropriate and timely treatment. This involves communication with attending physicians, arranging consultations and, when indicated, arranging for physical rehabilitation.

Assessment of permanent functional impairment resulting from work injury is the responsibility of the Medical Department. The majority of injured workers with permanent impairment are examined by the Medical Officers in the Board office. In some situations, because of the nature of the injury or complications due to other health problems, panels of recognized medical experts are used.

PHYSICAL REHABILITATION

One of the most important functions of The Workers' Compensation Board is rehabilitation. The process of physical rehabilitation commences immediately after injury with first aid at the job site and transportation to initial medical attention. It continues through the stages of medical management, convalescence and, when necessary, remedial medical treatment.

The objective of physical rehabilitation is to minimize the effects of injury and promote recovery in the shortest time possible.

In the majority of cases physical rehabilitation is achieved in the worker's community under the supervision of the attending physician. However, at least two percent of all work injuries require specialized physical rehabilitation facilities to achieve maximum recovery.

The Workers' Compensation Board, through an arrangement with the Wascana Hospital in Regina, provides a comprehensive physical rehabilitation program to a limited number of workers. This program is co-ordinated by an experienced physician who is part of a treatment team consisting of physiotherapists, remedial gymnasts, occupational therapists, work unit personnel, a psychologist, clinic nurse, Workers' Compensation Board representatives and local medical consultants.

The program is a full time, five day a week, out-patient program. Treatment is prescribed according to the needs of the individual and modified according to the response to treatment. Most of the injured workers receive some work conditioning in the Work Unit prior to discharge while those who will be left with permanent restrictions are given a work assessment prior to discharge.

Treatment times vary from one week to several months with the average stay in the range of three to four weeks.

A member of the Claims Department co-ordinates the admissions to the program, and the payment of compensation and expenses while on program.

An integral part of physical rehabilitation is vocational rehabilitation which often commences shortly after the worker is injured prior to admission to the Physical Rehabilitation Program. A Vocational Rehabilitation Counsellor is attached to the Physical Rehabilitation Program to ensure that the program is directed at the eventual vocational rehabilitation of the injured worker.

Over the last few years there have been major advances in the field of physical rehabilitation. These include the use of new modalities of treatment and development of expertise in the control and management of chronic pain. With these advance has come an increased realization that injured workers must not only be physically rehabilitated, they must be psychologically rehabilitated as well in order to achieve the best possible vocational rehabilitation.

VOCATIONAL REHABILITATION

The Vocational Rehabilitation Department assists injured workers in returning to employment following an industrial injury. Rehabilitation services are available to all workers who require employment assistance as a result of work injury. The first step is returning the worker to pre-injury employment with the original employer. Where this is not possible, the Rehabilitation Department explores other options such as performing modified duties for the same employer or training on the job in a related occupation. Should the original employer be unable to provide work within the injured worker's capabilities, a search is carried out for employment in other related industries which may suit the worker's existing skills and experience. If these options are impractical, basic upgrading, academic education, technical trades training or other training or relocation may be considered as a means of preparing for productive employment.

Dependent spouses of fatally injured workers are contacted to determine if there is anything the Board can do to assist them. Permanently totally disabled workers are visited on an annual basis to offer counselling and assistance.

During the year, 2,587 cases were provided with Vocational Rehabilitation assistance, out of which 1,654 were brought to a resolution and closed from active contact. Of the 1,654 cases which were concluded, 695 workers returned to their regular or modified employment with the pre-injury employer. A total of 209 workers returned to similar or altered employment with other employers. While assisting workers to locate employment, 733 were granted job search financial support totalling $1,956,058. Following a return to suitable employment with a temporary wage loss, 386 individuals were granted temporary wage loss support totalling $717,192.

There were 123 workers who participated in academic educational upgrading at a cost of $635,668. A total of 167 workers availed themselves of technical educational upgrading at a cost of $578,795. On the job work assessments were provided to a total of 122 workers at a cost of $198,140.

Training on the job is utilized to assist the employer with the costs of training an injured worker for suitable employment. There were 58 individuals who were sponsored in training on the job at a cost of $136,159.

Financial assistance in the amount of $35,972 was extended to 102 individuals to enable them to travel for employment search or testing prior to training consideration.

A number of individuals were required to relocate following injury in order to secure suitable employment. The Vocational Rehabilitation Department provided assistance to 18 individuals at a total cost of $14,517.

Modifications were provided to work sites for four employers at a cost of $954. Modifications to injured workers' homes were provided to 11 individuals at a cost of $21,802. Modifications to vehicles were extended to 21 individuals at a cost of $24,294.

Various technical aids and modifications were provided to 15 seriously injured workers at a cost of $3,569.

Many seriously injured workers required daily personal care and elect to remain at home rather than to receive institutional care. Personal care allowances are paid in consideration of care provided in the home and was extended to 75 individuals at a cost of $214,482.

A total of 750 individuals, including dependent spouses and children of fatally injured workers, received counselling service.

There were 36 requests received from injured workers for full or partial commutation of their monthly pension of which 29 requests were approved.

The Board wishes to extend its appreciation to many employers, unions, agencies and individuals for their assistance in the rehabilitation of injured workers.

* Supplement applies to dependent spouses receiving pensions for fatalities occurring prior to 1 January 1980. Supplement is indexed annually with the Consumer Price Index and continues to the first of remarriage or attainment of age 65. Minimum payment for a dependent spouse, with or without children, is $813.00 per month with reduction to $530.00 monthly at age 65. When minimum is in effect there is no offset of Canada Pension Plan benefits. For fatalities occurring on or after 1 January 1980 the dependent spouse receives an allowance equal to 75% of the deceased worker's earnings, bound by the minimum and maximum of compensation, indexed annually with the Consumer Price Index and reduced by applicable

benefits under the Canada Pension Plan after twelve consecutive months from the commencement of loss. No offset with Canada Pension Plan benefits is appropriate if the minimum of $813.00 per month is in effect.

For fatalities occurring on or after 1 January 1980 a monthly payment of $90.00 per child is payable on remarriage of dependent spouse. Payment continues to age 16. The benefit is indexed annually with the Consumer Price Index and offset with applicable benefits received under the Canada Pension Plan after twelve months from the commencement of loss.

** Orphan's benefit of $135.00 per month applies to fatalities occurring before and after 1 January 1980. Payment is to age 16 with extension to the end of the school term in which the child reaches age 21 if, in the opinion of the Board, it is desirable to further the education of the dependent child. The benefit is indexed annually with the Consumer Price Index and offset with appropriate survivor's benefits received under the Canada Pension Plan after twelve months from the commencement of loss.

PROVINCIAL AUDITOR

The assistance received from the Provincial Auditor and his staff is much appreciated.

STAFF

At 31 December 1983 the Board had a total of 220 employees, 201 at head office in Regina and 19 at the branch office in Saskatoon.

Two Board Members, Mr. M. G. Bourne and Mr. H. S. Elkin, retired on 30 April 1983. Mr. Bourne commenced employment with the Board on 1 May 1976 while Mr. Elkin took up duties 1 June 1976. Mr. Andy Koczka also retired after some 7 1/2 years with the Board.

The Board is grateful to its staff for the conscientious manner in which they have administered the Act.

Board policy is to promote from within whenever consistent with organizational needs and employees are encouraged to prepare for promotion.

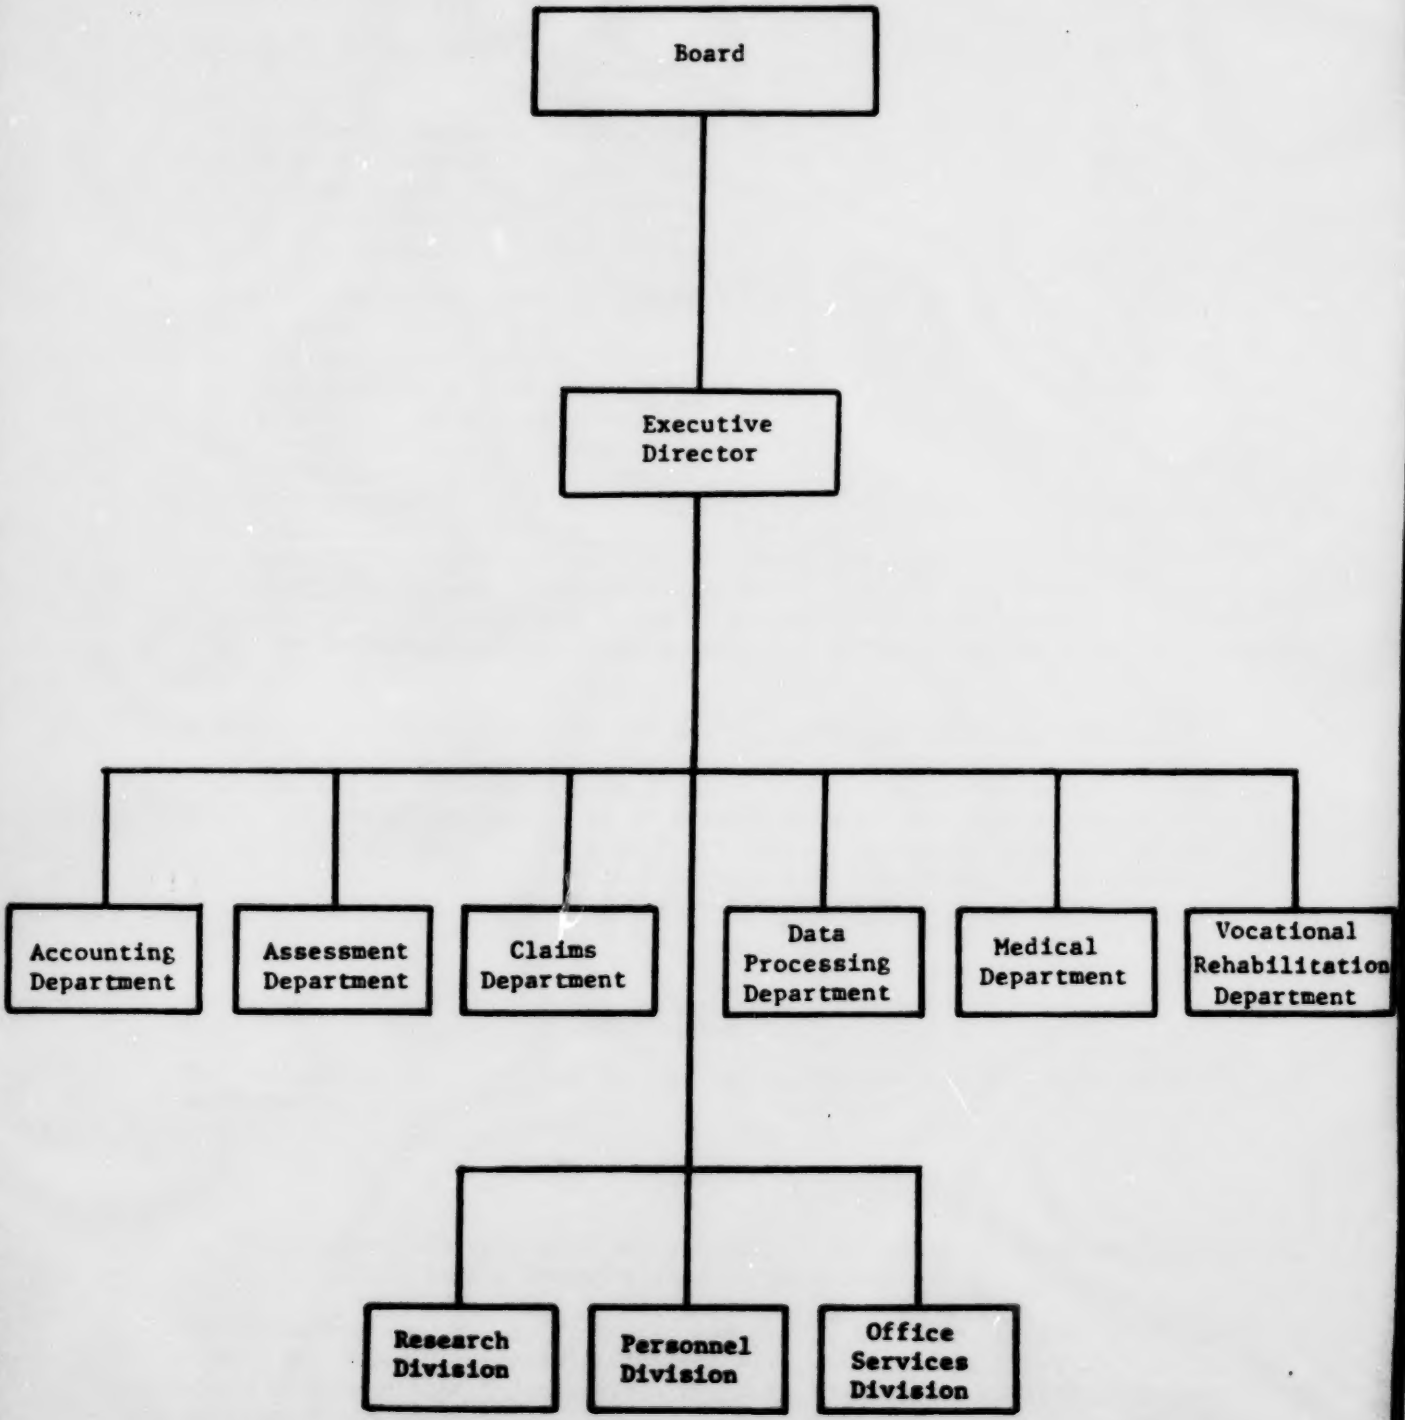
ORGANIZATION CHART



AUDITOR'S REPORT

To the Members of the Legislative Assembly
Province of Saskatchewan

I have examined the statement of financial position of The Workers' Compensation Board (Saskatchewan) as at December 31, 1983 and the statements of operations and fund balance of the injury fund and annuity fund and the statement of changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at December 31, 1983 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in accounting policies as explained in Note 11 to the financial statements, on a basis consistent with that of the preceding year.

THE WORKERS' COMPENSATION BOARD (SASKATCHEWAN)

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1983

1. Significant Accounting Policies

The Board's accounting policies are in accordance with generally accepted accounting principles. The following are considered to be significant:

a) Investments

(i) Bonds and debentures are recorded at cost at the time or purchase with any discount or premium amortized on a straight-line basis over the period remaining to the maturity date of the investment. Gains or losses on the sale of long-term investments prior to maturity are taken into or charged against revenue in the year of transaction.

(ii) Equities are accounted for on the "fair value" method. This method values equities on a five year moving average of market values thereby allowing for a gradual movement toward current quoted market values. American equities are translated into Canadian dollars at year-end exchange rate, and translation gains or losses on these equities are included in investment revenue for the year.

(iii) Mortgages are accounted for on the same basis as bonds and debentures held as long-term investments.

b) Depreciation

Depreciation on office furnishings and building is provided on a straight-line basis, commencing in the year in which the assets are placed in service, at the rate of 10% and 2 1/2% per annum respectively.

c) Assessments Revenue

At the beginning of each year, an assessment is levied on employers by applying their industry assessment rate to their estimated payrolls. The assessment levy is due and payable by installments within the current year. At year-end, assessment income is adjusted based on a review of the employers' actual payrolls.

d) Merit Rebate

To encourage safety practices and reduce injury costs the Board introduced a merit plan effective January 1, 1980. Employers who maintain an active assessment account for the latest three consecutive calendar years of not less than $15 in each year, and with claims cost under 60% of the assessment in the last year as well as in total over the last three years, will be eligible for a merit rebate if such exceeds $5.00 and the account is currently assessed and in good standing. Rebates are payable to a maximum of 25% of the levy in the last year. (Note 9).

e) Staff Superannuation

Superannuation costs for current services are being charged to operations on a current basis.

An actuarial review of the staff superannuation fund as at December 31, 1982 indicated an unfunded liability of $1,710,188. The Board has approved the actuary's recommendation of contributing at the rate of 2 to 1 of the required employee contributions effective January 1, 1983.

The actuary estimates this ratio will retire the deficit over the anticipated working life of the contributors.

2. Short-Term Investments

	1983	1982
Government of Canada	$ 4,882,103	$ -
Other corporate investments	30,748,922	33,203,362
Long-term investments maturing within one year	3,553,638	7,040,768
	$39,184,663	$40,244,130

Short-term investments are held to meet current obligations such as claims requiring immediate settlement. Short-term investments have been stated at cost which approximates market.

3. Investments

	1983	Market Value	1982	Market Value
Bonds and debentures at par	$208,940,725		$198,645,501	
Less: unamortized discounts or premiums	9,627,789		10,678,352	
Amortized cost	199,312,936	$181,436,809	187,967,149	$176,451,909
Equities	14,523,104	15,445,708	14,365,940	14,281,996
Mortgages	33,432,688	-	33,136,798	-
	$247,268,728	$196,882,517	$235,469,887	$190,733,905

Since mortgages are not publicly traded, their market value at year end has not been determined.

4. Land, Building and Office Furnishings

	Cost	Accumulated Depreciation	Net Book Value 1983	Net Book Value 1982
Land	$ 162,195	$ -	$ 162,195	$ 162,195
Building	2,314,891	886,863	1,428,028	1,465,859
Office furnishings	352,893	216,912	135,981	153,885
	$2,829,979	$1,103,775	$1,726,204	$1,781,939

5. Accounts Payable

Accounts payable include:

	1983	1982
Estimated merit rebates	$4,426,539	$4,028,125
Occupational Health and Safety	1,295,273	1,445,422
Assessment refunds	474,603	1,544,724
Employee benefits liability	550,546	302,608
Other payables	78,325	290,423
	$6,825,286	$7,611,302

6. Compensation Payable

Compensation Payable includes the following:
- the estimated cost to the Board of reported claims.
- the estimated cost of claims yet to be reported based on the claims settlement experience of the Board.
- the estimated amount required to meet the future payments to claimants and other recipients.

The estimated costs of $259,900,000 included in the Board's total Compensation Payable are determined by a yearly actuarial evaluation. The change in Compensation Payable each year is recorded as part of Compensation Expenditure (Note 10).

7. Appropriated Fund Balance

	Disaster Reserve	Second Injury Reserve	Rehabilitation Reserve	Pension Reserve	Total
Balance, January 1, 1982	$8,995,110	$ 2,150,012	$6,317,400	$127,800,046	$145,262,568
Amounts appropriated in 1982	998,796	226,867	734,714	(107,400,046)	(105,439,669)
Balance, December 31, 1982	9,993,906	2,376,879	7,052,114	20,400,000	39,822,899
Amounts appropriated in 1983	-	-	828,623	(20,400,000)	(19,571,377)
Balance, December 31, 1983	$9,993,906	$ 2,376,879	$7,880,737	$ -	$ 20,251,522

The reserves have been established by the Board within the provisions of The Worker's Compensation Act, 1979 to avoid undue and unfair burdens to the employers in future years with the payments to be made in those years in respect of costs and injuries that have previously occurred.

8. Annuity Fund

The Board sets aside amounts equal to ten percent of compensation paid to workers injured after December 31, 1979 who have been on compensation for twenty-four consecutive months to provide an annuity for the worker at age sixty-five. These amounts are charged to the Injury Fund Operations as Compensation. The Board does not maintain a segregated investment portfolio for this fund and therefore investment income is allocated to this fund based on the average rate of return of the investments and the balance of the annuity fund.

9. Assessments Revenue

The assessments revenue reported is net of the following:

	1983	1982
Merit rebate	$(4,426,539)	$(4,028,125)
Government of Canada Assessment	$ 1,457,830	$ 1,262,344

10. Compensation

Compensation expenditure includes the following:

	1983	1982
Compensation payments	$32,490,695	$ 29,232,624
Pension payments	22,602,247	14,134,958
Change in compensation payable	40,862,707	190,485,887
	$95,955,649	$233,853,469

Since the amount of the liability for Compensation Payable as at December 31, 1981 was not determinable, the Board was unable to determine the Change in Compensation Payable for the year ended December 31, 1982. Accordingly, the Board has included in Compensation Expenditure the entire Compensation Payable as at December 31, 1982 as determined by actuarial evaluation. Therefore the Change in Compensation Payable for December 31, 1982 of $190,485,887 included as part of Compensation Expenditure is not comparable to the Change in Compensation Payable for December 31, 1983 of $40,862,707.

11. Change in Accounting Policy

Effective January 1, 1983, the Board has adopted the policy of recording the liability for compensation payable in accordance with generally accepted accounting principles. This liability is determined annually based on the Board's compensation payment experience. This adoption of generally accepted accounting principles by the Board has significantly altered the financial statements from those presented previously and accordingly the effect of this change on the current and prior periods is not determinable.

The 1982 comparative figures have been restated except the Change in Compensation Payable included in Compensation Expenditure was not determinable. Accordingly, the Board has included in Compensation Expenditure the entire Compensation Payable of $190,485,887 as at December 31, 1982 and therefore Net Loss of $173,547,216 is not comparable to the 1983 Net Loss of $29,447,098. See Note 10.

12. Actuarial Certificate

The actuarial certificate on the valuation of liability of the Injury Fund regarding the compensation payable as at December 31, 1983 is included herewith.

ACTUARIAL CERTIFICATE

with respect to

THE WORKERS' COMPENSATION ACT, 1979

(forming part of a detailed actuarial report
on the liabilities as at 31 December 1983)

I hereby certify that, in my opinion, the amount required at 31 December 1983 to make sufficient provision for the future compensation payable and other claims cost expense, to injured workers and their dependents, on claims incurred prior to 1984, is $259,900,000. This amount does not include any amount payable from the limited compensation reserve or the annuity reserve, or any portion of the compensation payable and other claims cost expense, which might be made out of the second injury reserve or the disaster reserve on claims incurred prior to 1984.

INDUSTRIAL CLASSIFICATION

Industry Code	Industry Description
A01	Light Agricultural operations
A02	Farming and ranching
A03	Grain elevators and inland terminals
B01	Building construction, and related trades
C01	Dry goods, drugs and similar commodity marketing
C02	Wholesale implements without service
C03	Department stores, food outlets and similar commodity marketing
C04	Co-Operative Associations
C05	Lumber yards and builders supplies
C06	Automotive and implement sales and service
D01	Open seam and pit mining
D02	Conventional and solution potash mining and refining
D03	Operation of oilwells
D04	Oilwell maintenance, water well drilling
D05	Oil and gas drilling and service rigs
D06	Hardrock mining, shaft sinking and cross cutting
F01	Logging of saw timber, pulpwood, ties, poles and posts
F02	Sawing, planing, stud and chip mills, peeling, preserving and creosoting, plywood
F03	Pulp and paper mills, hardboard
G01	School Boards, Universities and Community Colleges
G02	Hospitals, Nursing and Special Care Homes
G03	Cities, Towns, Villages, Indian Bands and Northern Community Areas
G04	Rural municipalities
G05	The Crown in right of Saskatchewan
M01	Printing, publishing and manufacturing stationery and small wares
M03	Refineries, operation of gas and oil pipelines and manufacturing cement
M04	Bakeries, dairy products, soft drinks, food preparation, distilleries and breweries
M06	Flour mills, seed and vegetable oil plants, manufacturing salt and chemicals
M07	Processing meat, poultry and fish
M09	Metal manufacturing, machine shop, concrete block and ready mix
M09-02	Manufacturing Agricultural equipment
M10	Metal foundries and mills
R01	Road construction, earthwork, sewer and water and tunnelling
S01	Offices, professional, financial, et cetera as a business
S01-04	Union and association delegates
S02	Hotels, motels, restaurants, laundries, and funeral and ambulance service
S03	Caretaking, commercial maintenance and service clubs
S04	Architecture, surveying and engineering
T01	Bus transportation, messenger service and taxicabs, warehousing
T04	Commercial trucking
T05	Railway
T05-02	Commercial, chartered and pilot training flying; repair of aeroplanes
T05-03	Aerial application and surveying, helicopters and incidental repair
U01	Telecommunications
U03	Generation and transmission of electric systems
